## Brighton Company Recognized as Clean Corporate Citizen *Sen. Garcia recognizes March Coatings for efforts to protect environment*

LANSING – For exemplifying corporate environmental responsibility through a continued commitment to maintain, protect and enhance Michigan’s environmental resources March Coatings, of Brighton, has once again received a Michigan Clean Corporate Citizen designation from the Department of Environmental Quality, Sen. Valde Garcia, R-Howell, said.

“Michigan depends on citizens playing an active role in protecting our natural resources and serving as good stewards of our environment,” Garcia said. “March Coatings’ designation as a Clean Corporate Citizen should be praised, as it embodies the spirit of stewardship all companies should be seeking in the state.”

March Coating, Inc., earned the renewal of the Clean Corporate Citizen designation for the development and implementation of an environmental management system, the practice of pollution prevention and a strong environmental compliance record. The company has also assisted four other companies with environmental management system implementation.
